Subject No. 279.

A temple required at Hunsur.

Summary of discussion.—There is no temple at Hunsur. One is required very much.

Dewan's reply.—It is a worthy object for private enterprise.

Subject No. 280.

Conservation of water-supply in the Hanagod series of Channels.

Summary of discussion.—The water-supply in the Hanagod series of channels being admittedly limited, it should be conserved by the adoption of iron pipes of the proper sizes for sluices, and by better grading of the channels.

Dewan's reply.—This is being gradually done.

Subject No. 281.

Early extension of Mirle Hosa Nala Channel.

Summary of discussion.—Raiyats whose lands will be commanded by extension of the Mirle "Hosa Nala" channel, have executed agreements to contribute towards the cost of extension. The work should be expedited.

Dewan's reply.—The project is in hand.

Subject No. 282.

Public Works Department Projects.

Summary of discussion.—The following works of public utility suggested by Members were noted for consideration in the Public Works Department:—

(*a*). Extension of Chikdevarayasagar Channel from Aravattigekoppal in Tirumakudlu-Narsipur Taluk to a length of 4 miles, so as to feed the tanks at Bendravadi, Kirgaval, Markala, Marahalli and Malvalli; project practicable and highly remunerative.

(*b*). Repair and restoration of Marakal Tank (in Malvalli Taluk) commanding an area of 1,000 acres. Project remunerative in itself will be all the more so, if the storage capacity of the tank is increased and feeders excavated.

(*c*). Repair and restoration of Vadare Tank (Malvalli Taluk) commanding an area of about 1,000 acres.

(*d*). Restoration of the Hemagiri Channel in Attikuppa Taluk, calculated to yield a profit of 50,000 Rupees to Government.
